Maryland Workforce Information Directory

Governor’s Workforce Investment Board
Workforce Information Committee

February 2004
**Workforce Information Available by Organization**

**Bureau of Labor Statistics (BLS)**
- Wide range of economic data and information on such topics as Employment & Unemployment, Prices & Living Conditions, Compensation & Working Conditions, Productivity & Technology, Employment Projections, and International Labor Statistics

**Governor’s Workforce Investment Board (GWIB)**
- Analysis of earnings of graduates of occupational training programs and summaries of each program
- Report describes the labor supply and demand, including the fastest growing occupations, for the state and the local workforce investment areas and includes a policy discussion
- Graphic summary of public workforce development-related programs in the state including information on funding, clients and program outcomes
- Assessment of statewide workforce information needs
- Report on the skill requirements of the occupations projected to have the most job openings in the future
- Longitudinal study of the impact of the Skills-based Training for Employment Promotion (STEP) program on working parents and participating employers
- Report on the workforce needs of businesses in areas around the Chesapeake Bay
- Report on the current healthcare worker shortage, the forecasted future situation, and the best practices of Maryland and other states in addressing this issue

**Job Opportunities Task Force (JOTF)**
- Report analyzing the effectiveness of state programs designed to help low-income, working parents.
- Resources for hard-to-employ populations; policies and programs that support economic self-sufficiency; workforce events; and information for workforce practitioners and businesses

**Maryland Community College Business Training Network (MCCBTN)**
- Website with a searchable database of all the Continuing Education courses of the state’s 16 community colleges that offers course descriptions and schedules

**Maryland Department of Business and Economic Development (DBED)**
- Brief overview of economy, population and income, labor force, employment, wages, and major employers of Maryland and its 24 jurisdictions
- Maryland’s key economic indicators
- State business permit and license requirements

**Maryland Department of Human Resources (DHR)**
- Report that looks at how families fare after leaving welfare
- Data on expenditures and participation in various assistance programs
- TCA Core Caseload Report
- Information about transportation services in urban, suburban, and rural areas to assist welfare recipients and low income individuals in accessing employment opportunities

**Maryland Department of Labor, Licensing and Regulation (DLLR)**
- Website of information on employment and training including automated listing of job openings, information for businesses, access to information on training in local areas, links to other sources of employment information, and a significant volume of information on the Maryland labor market
- Annual report on the progress of the State and local areas in achieving Workforce Investment Act performance measures
- Apprenticeship and training information including a list of apprenticeable occupations registered by sponsors with DLLR
- Industrial employment and wage data for Maryland and regions
- Stratified list of the largest establishments by county
- Stratified list of the 100 largest private employers in Maryland
- Brief monthly analysis of changes in the labor market including employment and unemployment
- Employment projections for selected industries and occupations including total annual openings and projected growth
- Maryland and regional occupational wage data

**Maryland Department of Planning (MDP)**
- Data from the 2000 Census including general demographics, housing characteristics as well as social, economic, and detailed housing data for different geographic levels from the state to census tracts; and maps of the various geographic levels and of various data items including commuting and migration flows
- Population estimates for Maryland’s jurisdictions by age, race, sex, and Hispanic origin including post 2000 Census estimates through 2002, analysis of income inequality, data on foreign immigration in Maryland, household income estimates, state-to-state and county-to-county migration, and poverty estimates
- Historic and current job and personal income data. Job growth for Maryland.
- Historic data and projections for population, households, household size, jobs, labor force and personal income. Also included is historical and projected public school enrollment data.
- Information on various NAICS industries including the number of establishments, employees, payroll, and sales, as well as data on minority and women owned businesses
- Economic and statistical data on farms including maps
- Data on residential growth inside and outside the Priority Funding Areas and population characteristics; household and housing characteristics; and social, economic, and housing characteristics for the state, counties and Baltimore City including maps
- Data on new housing units constructed, value and housing units authorized
- Interactive tool that allows users to select a Redistricting or a Census 2000 geographic layer to retrieve a map and general demographic, housing characteristic, and socioeconomic data
- Profiles of Community Statistical Areas for Baltimore City including general demographic data, housing characteristics, and social and economic data
- Data and summary tables from the American Community Survey for several socioeconomic and housing characteristics such as poverty status and educational attainment for state and more populous counties

**Maryland Transit Administration (MTA)**
- State plan that examines the locations of low-income residents, employment centers and employment-related activities; identifies existing transportation providers and transportation gaps; and proposes specific projects to meet the identified gaps
- Guide to transit services and providers across the State
- Plan that identifies services, projects, programs and other improvements to transit services across the State
- Plans from local transit providers that identify transit needs, explore alternatives for improving services, and recommend five year plan
- Recommended transit system plan for the Baltimore area
- Manual to help communities reduce service duplication and improve transportation services
• Toolkit to help workforce development agencies respond to transportation challenges

**Maryland Higher Education Commission (MHEC)**

- Data about Maryland post-secondary education including students, degrees, and private career schools
- Statistical data about Maryland post-secondary education including enrollments and degrees awarded
- Trend data on degrees and certificates by academic program at each Maryland college and university
- Trend data on enrollment by academic program at each Maryland college and university
- Analysis of the relationship between high school performance and college performance
- Follow-up survey of college graduates including employment information
- Follow-up survey of community college graduates including employment information
- Survey of employers of community college graduates

**Maryland State Dept. of Education (MSDE) - Adult Education and Literacy Services**

- List of approved adult education programs by local jurisdiction

**Maryland State Dept. of Education (MSDE) - Correctional Education Program**

- Correctional education - school improvement data
- Maryland offender workforce outcome data
- Maryland recidivism rates

**Maryland State Dept. of Education (MSDE) - Division of Rehabilitation Services**

- Comprehensive assessment of the vocational rehabilitation needs of Maryland citizens with severe disabilities
- Annual report with data and statistics regarding the persons served, services provided, outcomes achieved and best practices in disability and rehabilitation services
Workforce Information Available by Information Category

General Economic Information
- Wide range of economic data and information on such topics as Employment & Unemployment, Prices & Living Conditions, Compensation & Working Conditions, Productivity & Technology, Employment Projections, and International Labor Statistics (BLS)
- Brief overview of economy, population and income, labor force, employment, wages, and major employers of Maryland and its 24 jurisdictions (DBED)
- Maryland’s key economic indicators (DBED)

Demographics of Workforce and Population
- Report that looks at how families fare after leaving welfare (DHR)
- Data from the 2000 Census including general demographics, housing characteristics as well as social, economic, and detailed housing data for different geographic levels from the state to census tracts; and maps of the various geographic levels and of various data items including commuting and migration flows (MDP)
- Population estimates for Maryland’s jurisdictions by age, race, sex, and Hispanic origin including post 2000 Census estimates through 2002, analysis of income inequality, data on foreign immigration in Maryland, household income estimates, state-to-state and county-to-county migration, and poverty estimates (MDP)
- Historic data and projections for population, households, household size, jobs, labor force and personal income. Also included is historical and projected public school enrollment data (MDP)
- Data on residential growth inside and outside the Priority Funding Areas and population characteristics; household and housing characteristics; and social, economic, and housing characteristics for the state, counties and Baltimore City including maps (MDP)
- Interactive tool that allows users to select a Redistricting or a Census 2000 geographic layer to retrieve a map and general demographic, housing characteristic, and socioeconomic data
- Profiles of Community Statistical Areas for Baltimore City including general demographic data, housing characteristics, and social and economic data (MDP)
- Data and summary tables from the American Community Survey for several socioeconomic and housing characteristics such as poverty status and educational attainment for state and more populous counties (MDP)

Employment, Unemployment, and Job Openings (including Shortages)
- Report describes the labor supply and demand, including the fastest growing occupations, for the state and the local workforce investment areas and includes a policy discussion (GWIB)
- Assessment of statewide workforce information needs (GWIB)
- Report on the current healthcare worker shortage, the forecasted future situation, and the best practices of Maryland and other states in addressing this issue (GWIB)
- Website of information on employment and training including automated listing of job openings, information for businesses, access to information on training in local areas, links to other sources of employment information, and a significant volume of information on the Maryland labor market (DLLR)
- Brief monthly analysis of changes in the labor market including employment and unemployment (DLLR)
- Employment projections for selected industries and occupations including total annual openings and projected growth (DLLR)
- Historic and current job and personal income data. Job growth for Maryland (MDP)
**Wages**
- Analysis of earnings of graduates of occupational training programs and summaries of each program (GWIB)
- Industrial employment and wage data for Maryland and regions (DLLR)
- Maryland and regional occupational wage data (DLLR)

**Occupations (job description, related occupations, skill/education requirements)**
- Report on the skill requirements of the occupations projected to have the most job openings in the future (GWIB)

**Industries**
- Report on the workforce needs of businesses in areas around the Chesapeake Bay (GWIB)
- Stratified list of the largest establishments by county (DLLR)
- Stratified list of the 100 largest private employers in Maryland (DLLR)
- Information on various NAICS industries including the number of establishments, employees, payroll, and sales, as well as data on minority and women owned businesses (MDP)
- Economic and statistical data on farms including maps (MDP)

**Education and Training (provider performance, programs/courses, certificates/degrees, student education plans)**
- Graphic summary of public workforce development-related programs in the state including information on funding, clients and program outcomes (GWIB)
- Website with a searchable database of all the Continuing Education courses of the state’s 16 community colleges that offers course descriptions and schedules (MCCBTN)
- Apprenticeship and training information including a list of apprenticeable occupations registered by sponsors with DLLR (DLLR)
- Data about Maryland post-secondary education including students, degrees, and private career schools (MHEC)
- Statistical data about Maryland post-secondary education including enrollments and degrees awarded (MHEC)
- Trend data on degrees and certificates by academic program at each Maryland college and university (MHEC)
- Trend data on enrollment by academic program at each Maryland college and university (MHEC)
- Analysis of the relationship between high school performance and college performance (MHEC)
- Follow-up survey of college graduates including employment information (MHEC)
- Follow-up survey of community college graduates including employment information (MHEC)
- Survey of employers of community college graduates (MHEC)
- List of approved adult education programs by local jurisdiction (MSDE)
- Correctional education - school improvement data (MSDE)

**Workforce Development Service Providers (services, participants, performance)**
- Longitudinal study of the impact of the Skills-based Training for Employment Promotion (STEP) program on working parents and participating employers (GWIB)
- Data on expenditures and participation in various assistance programs (DHR)
- TCA Core Caseload Report (DHR)
- Annual report on the progress of the State and local areas in achieving Workforce Investment Act performance measures (DLLR)
- Maryland offender workforce outcome data (MSDE)
- Maryland recidivism rates (MSDE)
• Comprehensive assessment of the vocational rehabilitation needs of Maryland citizens with severe disabilities (MSDE)
• Annual report with data and statistics regarding the persons served, services provided, outcomes achieved and best practices in disability and rehabilitation services (MSDE)
• Report analyzing the effectiveness of state programs designed to help low-income, working parents (JOTF)
• Resources for hard-to-employ populations; policies and programs that support economic self-sufficiency; workforce events; and information for workforce practitioners and businesses (JOTF)

**Geography and Transportation**
• Information about transportation services in urban, suburban, and rural areas to assist welfare recipients and low income individuals in accessing employment opportunities (DHR)
• Data on new housing units constructed, value and housing units authorized (MDP)
• State plan that examines the locations of low-income residents, employment centers and employment-related activities; identifies existing transportation providers and transportation gaps; and proposes specific projects to meet the identified gaps (MTA)
• Guide to transit services and providers across the State (MTA)
• Plan that identifies services, projects, programs and other improvements to transit services across the State (MTA)
• Plans from local transit providers that identify transit needs, explore alternatives for improving services, and recommend five year plan (MTA)
• Recommended transit system plan for the Baltimore area (MTA)
• Manual to help communities reduce service duplication and improve transportation services (MTA)
• Toolkit to help workforce development agencies respond to transportation challenges (MTA)

**Government Regulation/Licensing**
• State business permit and license requirements (DBED)
Agency: Bureau of Labor Statistics

Description of information: The Bureau of Labor Statistics (BLS) is the principal fact-finding agency for the Federal Government in the broad field of labor economics and statistics. The BLS is an independent national statistical agency that collects, processes, analyzes, and disseminates essential statistical data to the American public, the U.S. Congress, other Federal agencies, State and local governments, business, and labor.

BLS offers access to a wide range of economic data and information on such topics as Employment & Unemployment, Prices & Living Conditions, Compensation & Working Conditions, Productivity & Technology, Employment Projections, and International Labor Statistics.

Produce or possess: Produce

Frequency of availability: Varies by survey and program. Depending on the survey or program, BLS data is produced on a monthly, bimonthly, quarterly, semi-annual, or annual basis.

Most recent time period available: Varies by survey and program. Prices & Living Conditions and some Employment & Unemployment data are available the month following the reference month.

How and where the information is available: This data is available on our website. Data specific to the State of Maryland is available at [http://www.bls.gov/ro3/ro3_md.htm](http://www.bls.gov/ro3/ro3_md.htm) while data for the United States and other areas are available at [http://www.bls.gov/](http://www.bls.gov/)

---

**Agency:** Maryland Department of Business and Economic Development

**Description of information:** Brief Economic Facts – Data/fact sheet on Maryland and the 24 jurisdictions. Contains a brief overview of the state or jurisdiction's economy, population and income information, labor force, employment, wages, and major employers. Also included is information on tax rates, infrastructure (including transportation and utilities), as well as climate, recreation and education data. Draws from various state and federal data sources.

Economic Pulse – Publication containing key economic indicators and articles on Maryland and the U.S. economies. Provides a snapshot of the state of the Maryland economy including information on the labor force, employment, coincident and leading indices and other economic indicators. Draws from various state and federal data sources.

Business License Information System (BLIS) - An Internet-based system that helps business owners determine which State permits and licenses are required to operate their business. The system also gives comprehensive information and contacts for all of Maryland's occupational licenses, as well as helpful links to other business-related sites throughout the State.

**Produce or possess:** Produce

**Frequency of availability:** Brief Economic Facts is updated on an annual basis. The Economic Pulse is produced monthly.

How and where the information is available: Both the Brief Economic Facts and the Economic Pulse have PDF files that are available on the Internet. A hard copy of the report is available, but individuals are referred to the website. Website address for Brief Economic Facts: http://www.choosemaryland.org/orientation/community.asp

Website address for Business License Information System: http://www.blis.state.md.us/client/Blis.jsp

Contact: Roger Fujihara, (410) 767-6396, rfujihara@mdbusiness.state.md.us
Agency: Maryland Department of Human Resources

Description of information: Life After Welfare: Sixth Report – This report is the sixth in a series of reports that track a sample of families that exit welfare each month. The study looks at how well these families fare after leaving welfare by examining their employment patterns, attachment to other human services programs and other issues. Part of the report focuses on quarterly wage information, employment retention and the industries that most former welfare recipients are employed in.

Produce or possess: The Family Investment Administration produces this report through its long-standing research partnership with the University of Maryland School of Social Work.

Agency: Maryland Department of Human Resources - Job Access and Reverse Commute Program

Description of information: The Job Access and Reverse Commute Program has two major goals:

- to provide transportation services in urban, suburban, and rural areas to assist welfare recipients and low income individuals in accessing employment opportunities, and
- to increase collaboration among transportation providers and human service agencies and related service providers, employers, and affected communities and individuals.

Job Access projects implement new services or extend existing services to fill the gaps in current public transit services, and Reverse Commute programs transport the general public and low income individuals from urban areas to suburban employment opportunities.

Produce or possess:

Frequency of availability: Annually

Most recent time period available: Federal Fiscal Year 2002 (Maryland Transit Administration) State Fiscal Year 2003 (Maryland Department of Human Resources)

How and where the information is available: Data can be made available by either of the contact persons listed below.

Agency: Maryland Department of Planning

Description of information: The Maryland Department of Planning has developed an interactive tool, Address Lookup: Dynamic Maps and Census Reports, that allows users to select a Redistricting map layer or a Census 2000 geographic layer (county, census tract, zip code, block…) to retrieve a map and profile of selected characteristics for that area. Individual reports are generated for general demographics, housing characteristics, and socio-economic data.

The dynamic map and profile allows both novice and expert users easy access to 2002 Legislative and Congressional information as well as neighborhood level 2000 Census data.

Produce or possess: All tables are produced using data from the U.S. Census Bureau.
**Agency**: Maryland Department of Planning

**Description of information**: The Baltimore Neighborhood Indicator Alliance developed **Community Statistical Areas for Baltimore City**; from these MDP has created a series of 5 profile pages containing data from the 2000 Census. Data available include: general demographic data, housing characteristics, social and economic data, and detailed housing characteristics. The following are some examples of the statistical areas: Belair-Edison, Hamilton, Canton, Cherry Hill, and South Baltimore.

**Produce or possess**: Baltimore Neighborhood Indicator Alliance developed the boundaries and map establishing the Community Statistical Areas. All profiles were produced using data from the U.S. Census Bureau.

**Frequency of availability**: Census data is updated every ten years.

**Most recent time period available**: 2000
